Dear Doug,

I have replaced the exchange file meds20000224.dat on ftp:pacific.nodc.noaa.gov with MEDS20000225.DAT. This file has the ICES data deleted as per Harry Dooley's wishes.

Please note the change in file name. The two files meds20000224.dat should be deleted as they were mistakenly transferred in binary mode.

Regards,

Don Spear
