The NDBC March data are available in archive 291 format on the NDBC ftp server in four files. Please note the naming convention for the archive files will follow the format of
mmmyyyy_ARCH# beginning with this month

MAR2000_ARCH1
MAR2000_ARCH2
MAR2000_ARCH3
MAR2000_ARCH4

There were no new stations established in March. Buoy 44011 was re-moored at a new position on March 7, 2000.

Anticipate April data will be available May 17, 2000.
