Aloha Doug,

Please find enclosed the annual submission of shipboard ADCP. The data are on an exabyte 160mXL 8mm data cartridge. Two tar files are provided. Please see the READ.ME file in each tar file for information regarding organization of the data and the directory tree. This is the same method I used the last two years. The archive now consists of 415 cruises (4.04 gigabytes). Please let me know if additional information is necessary.

Best wishes for your upcoming retirement. You will be missed.

Aloha,

Mr. Patrick Caldwell
