that's correct. the text file explains why there are two files for 3FPA9. there were no august files attached. the reason that the e-mail message says august is because i was too lazy to type a new message and so i recycled the message i sent you in august. i realized that i had not changed the date until i sent it to you. i resubmitted the message and added that the files are for september. sorry.

you should have received the following files, please let me know if you have received everything.

- 3FPA9.09
