Dear Chris,

It was great seeing you again, this time on Tassie soil! I hope "Down Under" treated you well on the rest of your trip.

Well, as promised and at long last, here is data tape #1 from CSIRO. Sorry about the delay. It has all the current data (at 5 metre intervals) to the start of our program from five of our ships. Three other ships have just started sending data in, so their data will most probably be on tape #2 when its due. The data from the three "ACT" ships goes to Noumea at present for processing, so you will have to get that data from them (if you don't already have it).

Looks like I'll be attending the Brest Data Centre Workshop in March, so I presume I'll see you there.

Drop us a line on the telemail if you have any questions about the tape (G. Meyers).

All the best.

Rick Bailey

Re: TOGA XBT DATA

Please find enclosed a magnetic tape (specification also enclosed) containing XBT data relating to the CSIRO's Voluntary Merchant Ship program since the program's conception in 1983. The data is in CSIRO's 5 metre format (details also enclosed).
