CASTAL

Mitch,
Just to let you know - when you pick up the files for 9800137, from Sid, file cabs5_1b.txt is a replacement of file CaBS05_1.txt. Also, Sid added file cabso553.txt (station 53, which didn't get through the first time), but used the letter "o" instead of the number "0" in the filename.

Doug

time

Doug,

The replacement file has been sent, the file name is cabs5_1b.txt. I think we on the outside of the firewall are restricted to using /pub/incoming for placement of data. That was resultant to some firewall changes made last month. Can't go straight to /incoming.

Sid

>Sid,
>Would you mind forwarding the corrected version of station 1? Give it >the same file name but with a "b" after the name - CaBS05_1b.txt.

> I prefer not to edit files here, because then are creating data here at >NODC. Also, if you put the file in /incoming it keeps the ingest flow >process much cleaner.

>Thanks,
