

OBJECTIVES OF THE WORK

Objectives of the workshop are:

- Review the results of the MEDAR/MEDATLAS project;
- Increase awareness of the project products & of their usefulness for scientific & technical purposes;
- Identify ways for fostering operational networked data management system;
- Prepare recommendations for further improvement of the Mediterranean & Black Seas data management system.

ORGANIZING COMMITTEE

Dr. C. Maillard, MEDAR/MEDATLAS ,
Project Leader

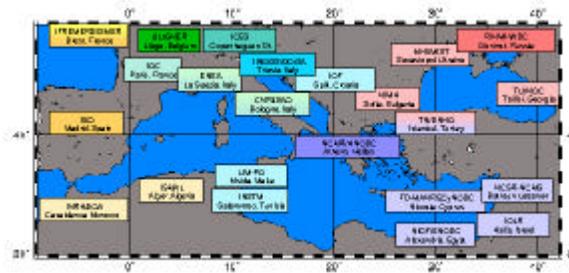

Dr. I. Oliouine, IOC MEDAR/MEDATLAS
Focal Point

Dr. B. Manca, OGS, Local Organizing
Committee

Mrs. Angela Marchetto, OGS, Conference
Office and Secretariat

ANNOUNCEMENT

MEDAR/MEDATLAS (1998-2001) is an ambitious European MAST/INCO concerted action and a regional contribution to IOC/IODE Global Ocean Data Archeology and Rescue Project (GODAR). More than 20 countries cooperate to save and prepare hundreds of thousands of marine physical and bio-chemical data. The combination of innovative data processing methods and the development of data products waited for by many users, helped to make this project a great success.

After 3 years of development, the MEDAR/MEDATLAS GROUP presents the database and the project results.

Mark your Calendar and plan to attend the Workshop

Commission

FINAL WORKSHOP
Trieste, Italy,
10-14 December 2001

Mediterranean Data Archeology and
Rescue of Temperature, Salinity and
Bio-chemical Parameters Project

WHAT DOES THE WORKSHOP OFFER

- Plenary Sessions with key talks by leading scientists open to all who desire to know more about the Mediterranean and the MEDAR/MEDATLAS project and links with related Global projects;

- ▶ MEDAR/MEDATLAS network and database, strong and weak points;

- ▶ Results of climatological analysis;

- ▶ Scientific data products, software and websites of interest to the community;

- ▶ Needs and perspectives for data products and data management structures from the point of view of major international projects like GODAR, GTSPP, WOCE, MFS;

- ▶ Presentation of a new data management project proposal for the Mediterranean and Black Seas;

- Poster Sessions on national and thematic data management activity;

- Training Sessions to become acquainted with MEDAR/MEDATLAS products and their usage;

- Round table discussions to share experiences and ideas, and prepare recommendations to improve the data exchange and continuous updating of the MEDAR/MEDATLAS database;

- Social Events.

WHAT WILL BE THE WORKSHOP PRODUCTS?

- A workshop report together with the work-plan for future activities, conclusions and recommendations.

- Volume of the proceedings including poster presentations if transmitted in electronic form (power point).

PREPARE YOUR POSTER AND LECTURE

- Dead line to send your abstract of paper and poster presentation is November 1, 2001

VENUE & DATES

10-14 December 2001

The Abdus Salam International
Centre for Theoretical Physics (ICTP)
Trieste, Italy
