27-Mar-05 23:21:33Z (davis)	Postproc	got a message from autoproccessing saying that there was an unmatched single quote when running D0mail.daily - this was because I had put a single quote in Nuku'alofa. Removed the single quote from CRUISE.LEG on both melville and georgem.	
28-Mar-05 19:16:25Z (davis)	Seabeam	Seabeam stopped, rebooting for demonstration purposes.	
29-Mar-05 00:19:31Z (davis)	Seatel	Noticed for the second time in two days that another signal is walking all over our satellite signal. We are pointed at the bird correctly, and I can see some of the common carrier at 64.8000, but the AGC level is up around 1830, which is about 200 counts higher than normal. This episode lasted about 5 minutes, dropped out, then came back.	
29-Mar-05 02:12:55Z (harper)	XBT	XBT #8 completed @ 0137Z, stored in TF_00008.EDF Generated SVP #01, applied to multibeam @ 0210Z XBT 1-5 failed 6 and 7 test prob launches
